Revised March 2011

*Through our School-wide Learning Expectations
our goal is to develop active, faith-filled Catholics who are life-long learners, effective communicators, responsible citizens, and
culturally aware individuals.*

*School-wide Learning Expectations are defined as what a student should know, understand, and be
able to do by graduation.*

*These learning expectations have been collaboratively developed by our
students, parents, teachers, staff, administration and School Board, reflecting the School
Philosophy and Mission Statement of St. Viator School.*
